PRESS RELEASE

Half-year results confirm Interbrew's underlying growth

Brussels, 4 September 2002

Today, Interbrew, *The World's Local Brewer®*, published its half-year results for 2002. Based on the reported financial figures, EBITDA, EBIT and net profit are down 12.1%, 26.7% and 18.3%, respectively.

AS REPORTED

Unaudited consolidated key figures (IAS) as reported in Interim Financial Report

	HY 2002	HY 2001	Δ %
Volume ⁽¹⁾	42.0	42.5	(1.2)
Net turnover ⁽²⁾	3,417	3,480	(1.8)
EBITDA ⁽²⁾	573	652	(12.1)
EBIT ⁽²⁾	244	333	(26.7)
Net profit ⁽²⁾	165	202	(18.3)
EPS ⁽³⁾	0.51	0.56	(8.9)
ROIC (%)	10.4	10.1	3.0

In line with the previous reporting format, the table below illustrates first-half results for 2002, excluding Carling®, and compares them with the first-half results of 2001, excluding the entire Bass® UK business (Carling®, Scotland and Northern Ireland).

POST-RESTRUCTURING CHARGE

Unaudited consolidated key figures (IAS) as adjusted for Carling/Bass UK

	HY 2002 Excluding Carling®	HY 2001 Excluding Bass® UK	Δ %
Volume ⁽¹⁾	40.9	34.8	17.5
Net turnover ⁽²⁾	3,332	2,784	19.7
EBITDA ⁽²⁾	569	516	10.3

EPS ⁽³⁾	0.52	0.54	(3.7)
ROIC (%)	10.4	11.6	(10.3)

⁽¹⁾ Million HL, excluding FEMSA.

⁽²⁾ Million euro.

⁽³⁾ EPS is expressed in euro, and means net profit from ordinary activities, plus amortization/impairment of goodwill, divided by the weighted average number of ordinary shares in the period.

Scope changes

A number of significant scope changes impacted first half-year results: Bass® brewing business in Scotland and Northern Ireland, as well as Diebels®, are included in scope changes for six months. Beck & Co. is included for five months.

Re-engineering for long-term growth

The most important initiative taken to sustain long-term growth relates to the previously announced outsourcing of the secondary distribution and logistics in the UK to Tradeteam Limited, subject to OFT approval. This resulted in a one-off, restructuring charge of 37.5 million pounds Sterling (61 million euro), as well as on-going improvements to cashflow and profitability at Interbrew UK. The effects of this restructuring are summarised in the table below.

PRE-RESTRUCTURING CHARGE

Unaudited consolidated key figures (IAS)

	HY 2002 (excluding Carling®)		HY 2001 (excluding Bass® UK)	Δ % (pre-UK restructuring)
	Post-UK restructuring	Pre-UK restructuring		
Volume ⁽¹⁾	40.9	40.9	34.8	17.5
Net turnover ⁽²⁾	3,332	3,332	2,784	19.7
EBITDA ⁽²⁾	569	630	516	22.1
EBIT ⁽²⁾	253	314	272	15.4
Net profit ⁽²⁾	171	218	206	5.8
EPS ⁽³⁾	0.52	0.62	0.54	14.8
ROIC (%)	10.4	11.3	11.6	(2.6)

⁽¹⁾ Million HL, excluding FEMSA.

⁽²⁾ Million euro.

⁽³⁾ EPS is expressed in euro, and means net profit from ordinary activities, plus amortization/impairment of goodwill, divided by the weighted average number of ordinary shares in the period.

Interbrew continues to pursue opportunities to improve its businesses. This is an on-going process, and further re-engineering actions will be announced at the appropriate time.

Performance by region

The first half of the year was characterised by underlying business growth, despite capacity constraints in Russia, and the non-integration of Beck's in Labatt USA. Interbrew also made important investments to improve long-term growth.

Western Europe

In Western Europe, a region with low or declining market growth, Interbrew realised a 1.7% organic volume growth and 2.3% organic net turnover growth. Organic EBITDA grew 9.3%, thanks to a combination of price and mix improvements, plus good cost management. Market shares have been stable or growing in all countries.

Stella Artois® has again outperformed its competition in the UK, with value growth of 9.4% versus the 5.5% value growth of the premium lager segment. Interbrew also announced the addition of the well-known, mainstream lager, Castlemaine XXXX®, brewed under licence and distributed by Interbrew UK, which means the company now has a balanced portfolio in this market. In Belgium, Jupiler® continued its strong performance, both in the on- and off-trade business.

In the German market, for the first half of 2002, Beck's® is the only brand with double-digit volume growth: 17.8%. Its volumes reached an all-time high in June 2002, and the pricing environment in Germany remains favourable.

The Americas

In the Americas, volume grew organically by 2.9%, while organic net turnover growth was 5.5%. Organic EBITDA and EBIT growth, including one-time lock-out charges of 19 million euro, increased 1.1% and 0.9%, respectively. At Labatt USA, the import business continues to drive volume growth, and sales to retailers/depletions increased 7.7%. In addition, the new marketing mix for Rolling Rock® is beginning to show positive results.

Beck's North America is currently operating independently from Labatt USA. The uncertainty resulting from the delay in the integration process has had a negative impact on Interbrew's sales performance. In the first half, distributor depletions were off 4% nationally, but they did improve in July and August.

Demonstrating its firm commitment to strengthen its position in the US on-trade market, Interbrew announced that an agreement has been reached with Diageo to transfer to Interbrew all import and distribution rights for Bass® Ale in the United States. The details of this agreement can be found in a separate announcement released today to the press.

In Canada, Interbrew negotiated favourable, multi-year workforce agreements, thus preventing an unacceptable rise of 93 million euro in the cost base. The settlement cost Interbrew 19 million euro, a consequence of the lock-out at the London brewery in Ontario, and includes the related workers' pension agreement. When this non-recurring cost is excluded from the half-year calculations, EBITDA and EBIT grew organically in the Americas by 12% and 17.1%, respectively. Overall market share is stable and the pricing environment remains firm. Oland Specialty Beer Company continues its strong growth path in the premium segment, with a 20% organic volume growth.

Interbrew's performance in Cuba was encouraging, with a 20% compound volume growth rate, and validates the recently announced investment supporting future growth.

Emerging Markets

In Emerging Markets, organic volume growth of 2.7%, plus mix improvements; have led to an organic net turnover growth of 6.5%. Strong sales growth in the core segment was achieved in the Czech Republic, Hungary and Croatia. This strong growth helped offset weaker performances in Bulgaria, Romania and Montenegro, where difficult economic conditions have brought on a shift towards the value segment.

In Russia, first-half performance was negatively impacted, mainly because of capacity constraints in the market's fast-growing PET and can segments. Important capital-expenditure commitments made in the fourth quarter of 2001 came on stream as of June 2002. In South Korea, Interbrew's financial performance continues to be very positive, with continued market-share growth of the Cass® brand.

The company also continues to carefully consider investment choices to ensure its strategic positioning in top-growth markets. The framework agreement with Zhujiang Brewery is designed to further strengthen Interbrew's position and development in China, which saw strong volume growth in one of the most promising beer markets in the world. Final details of this agreement are expected to be announced before the end of the year.

Segment information

The information in the table below can be reconciled to the attached Interim Financial Report by adding back the figures in the Bass column of the attached notes for 2001 and 2002, and by subtracting the 61 million euro UK restructuring charge in 2002.

(1) Excluding 37.5 million pounds Sterling (61 million euro) restructuring charges in 2002.

(2) Excluding FEMSA.

(3) HY Results for 2002 include the 19 million-euro one-time cost of the lock-out in London, Ontario.

Outlook

Interbrew remains on track to meet its long-term objectives and reiterates its target of double-digit, average annual growth in EPS before goodwill amortisation, from 2000 to 2004, irrespective of scope changes.

Poor weather conditions in Western and Central Europe, combined with the investments we made in long-term sustainable growth, lead Interbrew to target an EPS pre-goodwill and pre-restructuring of 1.50 euro for the current year.

Shareholders' agenda

Live webcast of half-year results presentation

In line with Interbrew's commitment to equivalence of information for all shareholders, the presentation of the first half year results to sell-side analysts shall be webcast live on Interbrew's website www.interbrew.com on 4 September 2002 at 15:00, Central European Time (9:00 NY/EDST). It will remain accessible in the video archive for the next six months.

Publication of nine-months trading update: 28 October 2002

Publication of 2002 full-year results: 19 March, 2003.

Interbrew - *The World's Local Brewer®*

Interbrew, The World's Local Brewer®, is a leading consolidator in the world beer industry. The company is headquartered in Belgium and employs over 37,000 people worldwide. The strategy of Interbrew, The World's Local Brewer®, is to build strong local platforms in the major beer markets around the world. In the markets where it operates, Interbrew is respectful of the local heritage and tradition of the beer industry and helps the local management grow its business. "The World's Local Brewer®" strategy is based on four pillars: first strengthening the local brands (in many cases market leader, such as Jupiler® in Belgium), thereafter introducing international premium and specialty brands including Stella Artois®, Beck's®, Hoegaarden®, Leffe® and Bass® Ale. ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES

ACQUISITION OF BECK & CO.

On 1 February 2002, the Group acquired 80.02% of the shares in Brauerei Beck GmbH & Co. KG ("Beck & Co.") for a purchase price of 1.7 billion euro. The remaining 19.98% of shares in Beck & Co. are held by a subsidiary of Beck & Co. A portion (0.96%) of this subsidiary is owned by minority shareholders. Hence, the Group acquired, directly and indirectly, 99.81% of the economic interest in Beck & Co. The acquisition is accounted for using the purchase method of consolidation.

The goodwill on the acquisition of Beck & Co., including the value of the brands acquired, is approximately 1.4 billion euro, subject to adjustments due to the final determination of the fair values of the assets and liabilities acquired. Goodwill and brands are amortized over a period of 40 years.

DISPOSAL OF CARLING BREWERS

On 2 February, 2002 Interbrew completed the sale of Carling Brewers to the Adolph Coors Company and accordingly, as of that date, Interbrew ceased to consolidate Carling Brewers. The impact of the disposal was reflected in the 2001 financial statements.

The sale had its origins in the initial decision of the Secretary of State on 3 January 2001, which vetoed Interbrew's proposed merger of the UK brewing operations of Bass Brewers and the Whitbread Beer Company, and required the company to divest the UK beer business of Bass Brewers. In February 2001, Interbrew applied in the UK for a judicial review of this decision in the High Court of Justice. In May 2001, the High Court decided in favor of Interbrew, and asked for a review of the decision. Public consultation on several remedies was carried out by the Office of Fair Trading (OFT). In September 2001, the UK Secretary of State endorsed the remedy which included the sale of Carling Brewers. Under this resolution Interbrew retained Bass Brewers' businesses in Scotland and Northern Ireland, as well as the global rights to the brands Bass Ale and Tennent's, and the subsidiary in Italy. Not at issue was the Prague Brewery (which produces Staropramen) which had already been integrated into the Interbrew family.

¹ Bass business in Scotland and Ireland is reported in the Western Europe column in 2002 (in the Bass column in 2001)

² Including UK restructuring costs of 37.5 million pounds Sterling (61 million euro)

SEASONALITY OF OPERATIONS

Beer consumption is seasonal, typically resulting in higher demand during the summer season and accordingly lower profitability and turnover during the first half of the year. Further, December is a peak month in the UK and in Canada.

UK RESTRUCTURING COSTS

Interbrew will outsource its secondary distribution operations in the UK to Tradeteam Limited and accordingly has recorded a restructuring charge of £37.5 million (61 million euro). It is intended that all secondary distribution operations and approximately 1,500 personnel will be transferred to Tradeteam. The agreement with Tradeteam is subject to regulatory approval and completion of employee consultation. Tradeteam is no longer within the Interbrew Group, as it formed part of the disposal of Carling Brewers as described above.

UNUSUAL ITEMS

There were no important unusual items affecting assets, liabilities, equity, net profit, or cash flows during the six month period ended 30 June 2002.

SUBSEQUENT EVENTS

There are no significant events subsequent to the end of the interim period that have not been reflected in the financial statements.

PRESS RELEASE

Interbrew obtains distribution rights for Bass® Ale in the United States

Brussels, 4 September 2002

Today, Interbrew, *The World's Local Brewer®*, announced that an agreement has been reached with Diageo to transfer to Interbrew all import and distribution rights for Bass® Ale in the United States, for USD 105 million (USD 79 million after tax). By virtue of this agreement, Interbrew will obtain operating control of the Bass® Ale brand in the United States, as of 30 June, 2003.

Bass® Ale is a high-margin brand which accounts for more than 25% of all super-premium imported beers in the US, and which will occupy a unique role in Interbrew's portfolio. In the US market, the brand will give Interbrew operational control of 7 out of the top 12 best-selling imported beers, as well as 23.7% of the import segment. In addition, Bass® Ale's 700,000-hectolitres volume will significantly strengthen Interbrew's position in the American on-trade market.

"We look forward to working with Diageo on developing Bass® Ale in the US market during the transition period until June 2003," said Hugo Powell, Interbrew's CEO. "I firmly believe that Bass® Ale will considerably enhance our portfolio of brands, and strengthen our position in the rapidly growing import segment of the market."

Interbrew - *The World's Local Brewer®*

Interbrew, *The World's Local Brewer®*, is a leading consolidator in the world beer industry. The company is headquartered in Belgium and employs over 37,000 people worldwide. The strategy of Interbrew, *The World's Local Brewer®*, is to build strong local platforms in the major beer markets around the world. In the markets where it operates, Interbrew is respectful of the local heritage and tradition of the beer industry and helps the local management grow its business. "The World's Local Brewer®" strategy is based on four pillars: first strengthening the local brands (in many cases market leader, such as Jupiler® in Belgium), thereafter introducing international premium and specialty brands including Stella Artois®, Beck's®, Hoegaarden®, Leffe® and Bass® Ale. Finally, Interbrew brings considerable best practices to its local platforms and continues to develop the local operations both organically and through selective acquisitions. In total, more than 200 Interbrew brands are sold in over 120 countries. Visit web site www.interbrew.com for more information on Interbrew.
